Ferris & Britton Law Firm Celebrates 40 Years of Service

SAN DIEGO, CA – April 25, 2008 (Business Wire) – In 1968, the Dow Jones was at 900, phones were rotary dial, five TV channels were available with a good TV antenna, gas was \$0.35/gallon, and the San Diego business law firm of Ferris & Britton began serving businesses and their owners. In 2008, the Dow Jones is over 12,000, Ferris & Britton's cable and telecommunications clients offer hundreds of channels and phone service via fiber optic cables, gas is almost \$4/gallon, and the 9-attorneys at Ferris & Britton are still serving businesses and their owners.

Founding partner Al Ferris remains of counsel to the law firm, although his corner office overlooking the San Diego harbor is a far cry from the cardboard box he temporarily used as a desk when Ferris & Britton moved into its first offices 40 years ago and the furniture was late in arriving. Office Manager Virginia Newton has been with Ferris & Britton for 38 of the 40 years.

“We are proud of the fact that Ferris & Britton is the only San Diego business law firm of our size that has reached its 40th birthday, but the real focus of our celebration is the success our clients have enjoyed over the years. We take great satisfaction in having played a modest part of our clients' success and look forward to celebrating our golden (50th) anniversary after many more client successes,” said Gary Moyer, the managing officer of Ferris & Britton.

The firm serves the business, investment and professional communities and has an “av” (top) rating from the Martindale-Hubbell Law Directory, is listed in that publication's “Register of Preeminent Lawyers,” and is a member of the Primerus international alliance of top-quality, independent law firms. Primerus firms are vetted and accredited for membership based on their commitment to rigorous standards based on the following six principles: integrity, excellence of work product, reasonable fee structure, professional education, civility, and community service.
